Foster Grandparent Program

THE GRAN PLAN

Volunteers for Community Impact's **GRAN PLAN** will provide local families with a Foster Grandparent Volunteer who can assist parents with their children's education. While our FGP volunteers cannot replace parents or teachers, they can assist families by providing positive mentorship and educational assistance to students.

HOW IT WORKS:

Our FGP volunteers have served in schools providing in-classroom assistance to students who need a little extra attention to succeed academically. We have decided to provide these services directly to families by having our FGP volunteers utilize tele-conference video solutions to assist your children on their school work.

Families apply to Volunteers for Community Impact to receive a Foster Grandparent Volunteer. Parents will meet with one of our coordinators who will ascertain your child's needs and how our volunteers can assist you in providing for your child's educational needs. To learn more about this new demonstration project please follow the links below.
